COSTS FOR MICROSCOPIC REVERSAL OF TUBAL STERILIZATION

The total cost for microscopic reversal of tubal sterilization is **\$12,800**.
The cost breakdown is as follows:

1. Dr. Silber's surgical fee for the microscopic reversal of tubal sterilization is \$7,600. We recognize that this is a major investment, and in return, you expect a high quality of microsurgical expertise and technology to give you the best possible chance for success. Because of the detailed planning required and the large number of out-of-town patients, this fee is payable four weeks in advance. All fees are payable by credit card or check.
2. St. Luke's Hospital fee is \$4,400 and is payable two weeks prior to surgery. The hospital fee includes the operating and recovery rooms.
3. General anesthesia fee is \$800. Anesthesia is administered by a professional anesthesiologist. This fee is also due two weeks prior to surgery.
